Offering New Levels of Sales and Service in Sydney's Transport Hub

A strategic growth plan combined with a positive outlook have encouraged Hamelex White and the Fleet-Pro Group to expand their presence in Sydney's transport hub with the opening of their new multi-purpose joint sales, service and parts facility at Prestons NSW.

As the industry begins the road to recovery and with demand for transport services likely to increase in the coming 12 months, Hamelex White and the Fleet-Pro Group will be well positioned to meet the sales, parts, service and repair needs of their strong customer base in the Sydney region.

The teams of Dean Price, NSW Area Manager for Hamelex White and the Fleet-Pro Group General Managers Robert Lanham and Darryl Colless, have extensive experience and knowledge in all areas related to trailer sales, repairs and service and can provide expert advice that adds value to the buying process.

Dean is delighted with the layout and quality of the new joint facility stating, *"This purpose-built facility provides an ideal starting point for operators and large fleets looking to purchase or upgrade their current tipper equipment. Easy access and extremely knowledgeable staff are the first of many benefits that customers will experience."*

The Fleet-Pro Group offers complete heavy vehicle maintenance services through its Mechanical, Smash, Body Building and Bus & Coach divisions.

The premises contains a facility specific vehicle hoist that is capable of lifting B-Double Trailers, a state of the art chassis crush and alignment unit and an overhead 5 tonne crane – meaning that virtually any service or repair job can be handled, no matter how large or complex.

It also offers a comprehensive spare parts service, giving operators confidence that their equipment can be repaired or serviced without delay.

Importantly, the facility is both RTA and Truck Safe accredited. Thanks to this accreditation, the customers of Hamelex White and the Fleet-Pro Group can be confident of the highest level of quality in trailer and truck repairs and service.

In addition, Fleet-Pro Mechanical can undertake defect rectification and annual “pink slip” roadworthiness certification tests, making it a one stop shop for keeping trailers and trucks in good shape and on the road making money for their owners.

Fleet-Pro Mechanical also has a Service and Repair Division located at Wallsend - Newcastle, which is also RTA and Truck Safe accredited.

Located at 8-10 Avalli Road in Prestons and providing easy access to Sydney’s M7, M5 and M2 motorways, Hamelex White sales is open from 7am to 5pm weekdays while Fleet-Pro Mechanical will take care of all customer service, warranty and maintenance programs from 7am to midnight during weekdays and 7am to 1pm on Saturdays.

In addition, there is also a 24 hour emergency breakdown unit and a recovery and salvage service that ensures no driver is literally left in the dark should an unfortunate event occur.
