Lightweight With a big Punch

Hamelex White's tipping capacity was on show at the Brisbane Truck Show with their tri axle aluminium chassis tipper trailer. 9.8 metres in length, the tipper featured an automatic axle lift that raises one axle when unladen, reducing tyre wear and aiding manoeuvrability. The aluminium tri axle tipper exhibited will go straight to work after the Brisbane Truck show performing gruelling work in quarries around Queensland.

With a 27 metre cubic capacity, the chassis tipper can be used as a tri axle semi trailer, B-double or road train combination. Depending on the truck configuration, operations can achieve a 27 tonne payload with the chassis tipper trailer. Hamelex White tippers are known for their durability and high payload aluminium chassis tippers, backed by their 2 year unlimited warranty and supported by their nationwide dealer network.

Ends...

That bling factor: Hamelex White's tri axle chassis tipper trailer was on show demonstrating why they are the tipper specialists.
